Dear parents,

The Summer Vacation has begun. To keep our students engaged in fun based learning activities we have compiled a set of activities for the Summer Vacation. You may have to help your child to complete the home-work.

Some points to keep in mind:

1. You need to take a print out of the home-work sheets and paste the completed worksheets in respective notebooks.
2. Provide the required assistance to your child to complete the home-work.
3. Dates of submission are as follows:
 - a) English – 4th July, 2017
 - b) Hindi – 5th July, 2017
 - c) Maths – 6th July, 2017
 - d) Environmental Studies – 7th July, 2017
4. Make sure that your child submits the completed holiday home-work to the class teacher when the School re-opens.
5. Please take care of the neatness of work.

*HOPE YOU SPEND QUALITY TIME WITH YOUR CHILD.
WISHING ALL THE KIDS AN EARTHLY SUMMER BREAK!*

CLASS-2 TEACHERS

ENGLISH

ACTIVITY 1:

Hello! I am an unhappy tree because there are some people who do not let me live long. They cut me for their selfish motives. Please **tell my importance to these people through posters & suitable slogans**. Do so in the work area provided below. Let each one realize that there would be no life without me. Plant a tree today & tomorrow for **GREEN EARTH, CLEAN EARTH.**

ACTIVITY 2. 'GO GORGEOUS BY GORGING ON FRUITS'

➤ Highlight the names of fruit in the puzzle given below:

Fruit Word Search Puzzle

Name: _____

Class: _____

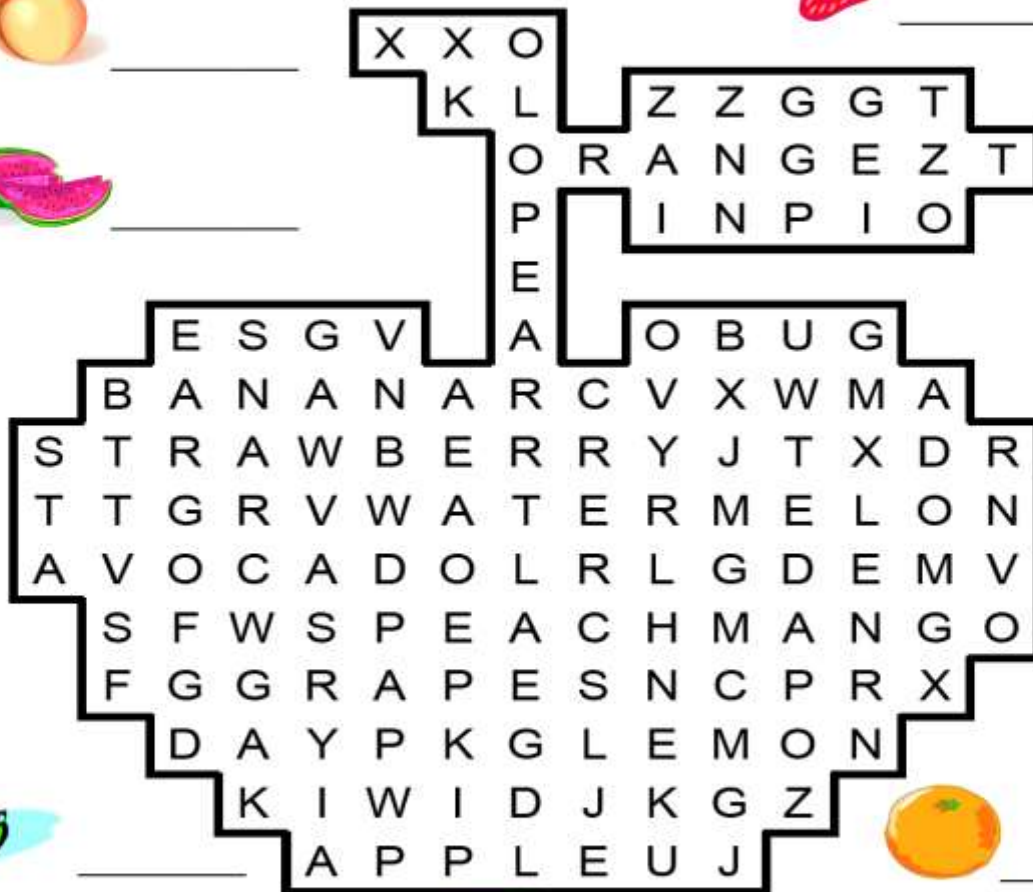

Using the pictures as clues, find the words hidden in the puzzle. Write the words next to the pictures.

ACTIVITY 3:

FROM THE CHEF'S PLATTER

Hey kids! Bring healthy bites in your tiffin.

Put on your chef's cap and prepare a healthy dish; for example, a salad or fruit *chaat* using all the possible ingredients. Write the recipe of your preparation on a recipe card. Decorate the recipe card. Tell the class about your preparation.

ENVIRONMENTAL STUDIES

ACTIVITY 4:

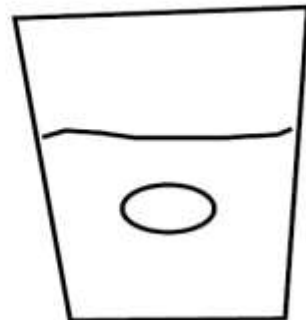

GROW A PLANT & TAKE CARE OF IT.

The Life of a Plant

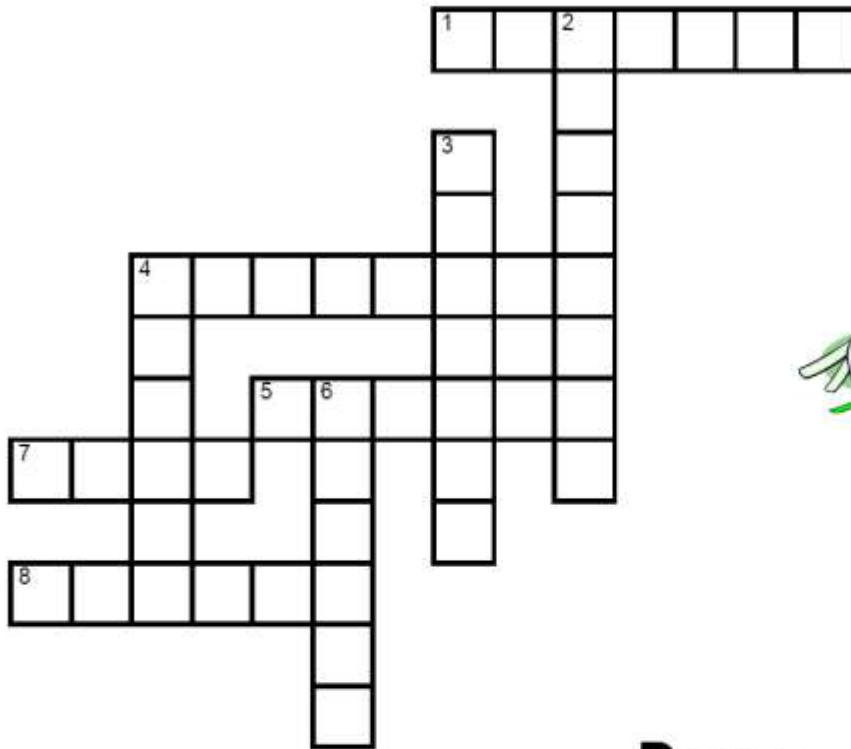

Directions: The best way to learn about the life cycle of a plant is to start with a seed.

1. Choose a seed to plant. A kidney bean or sunflower seed would work well.
2. Fill a clear cup with some soil. Poke a hole into the soil with your finger, and drop in the seed.
3. Add some water so the soil is wet.
4. Wait and watch.
5. Draw what you see after a week. After two weeks... Observe and record what you notice about the plant's life cycle.
