DAV Public school, Dwarka also did well, but they just need to work a little bit more on their question and asking skills. Maybe a class exercise on critical thinking can help them with it.

Launch of Career Counseling Portal

Research shows that students and parents are aware of less than 15% career options after Class XII. This leads to parents & students missing many career opportunities. Also, they end-up making sub optimal career decisions. As mentors and important stakeholders in moulding the future of our students, Bal Bharati Public School, Noida understands these concerns equally well.

BBPS, Noida has initiated an online career counselling platform to help Class XII students to discover careers and higher education options while keeping the parent in the loop.
