

## REPORT ON SOLAN TRIP

*“Travelling provides knowledge and with knowledge comes understanding”*

Travel provides immeasurable opportunities for students to enhance, enrich and expand the horizon of their lives. Outings are a learning experience for students and has an everlasting impact on them. A trip to Bal Bharati Activity Centre, Solan, was organized for students of classes IV and V.

Starting early in the morning, the fun filled journey was in itself enjoyable. After reaching the activity centre, the students settled into their hostel and it was four days of fun-filled adventure activities.

With an early morning trek, the days were filled with other fun activities like rock-climbing, rappelling and flying-fox. All these activities were done under the supervision of skilled trainers. The evenings saw children try out their cooking skills and enjoy bonfire.

New friends were made and old friendships strengthened during these four fun-filled days. These activities not only promote healthy exercise but also help in fostering team spirit. It helps students to learn essential life skills and develop holistically in an enjoyable manner. As the saying goes, “All work and no play, makes Jack a dull boy”, and this trip to Solan was the playful activity that did not have a dull moment and by the end of trip, students were yearning for “Yeh Dil Mange More”.
