The two-day workshop can be divided on the basis of the topics dealt with on both days-

The innovative methods used-Group activities and presentations

Both the techniques can break the monotony and enhance comprehension and classroom interaction.

2. Learning outcomes (Knowledge and Information) from the workshop

- The most important aspect of teaching English is to be able to infuse life into day to day imparting of knowledge. The other outcomes of this workshop are
 - *Warm up sessions to ignite interest
 - *Tackling reading comprehensions on a time budget
 - *New activities to make the lesson interesting.
 - *Making a balanced question paper keeping in mind Bloom's taxonomy
 - *Encouraging students to talk of their opinions and feelings.

* Fostering personal involvement in language learning process.

*Visualizing and verbalizing abstract thought

3. Most interesting or useful topics or aspects of the workshop that can be applied to the classroom teaching

The workshop proved to be rewarding as several changes in formats and expression were discussed at length, thus bringing in clarity. Brainstorming sessions invigorated the two-day interactions. The various sections of an English paper, particularly the reading comprehension were discussed and ideas were exchanged about the fastest way to skim the contents, scan, comprehend and cull the meaning systematically keeping the time constraints in mind. A presentation to comprehend, interpret, evaluate, appreciate the novel was held at the end. Students must be taught to express ideas about the novel and for that class interactions to infer and evaluate with creativity and fluency must be held regularly.

4. How will you implement the knowledge & techniques acquired to your subject?

With the help of knowledge gained during the workshop various kinds of letters, figures of speech used in poetry, HOTS questions from the chapters can be discussed with a fresh perspective. Class interaction and ice breakers can lead to more warmth and bonhomie between learners thus adding to the vibrance and colour in the class.

5. Comments and suggestions (How do you think the workshop/Seminar could have been made more effective?)

The workshop could have been more effective if some more literature chapters and poems had been discussed. More activities suited for the senior secondary level should have been discussed. Other than this, the workshop was helpful and informative.

6. Was the advance briefing about the workshop appropriate?

Yes.
