

# Cyber Security Survey @ ICT Club

The Internet is an immense and valuable resource that unlocks a world of possibilities. Today both adults and children are using the Internet for a wide array of issues. Our kids, however, are also using the Internet as an online playground. They socialize, post pictures and videos, play video games, and share experiences with friends. Unfortunately, strangers also have access to these conversations, pictures, and videos. When our kids are online, they can be exposed to real dangers like identity theft, cyber bullying etc. The basic idea of this survey was to create awareness on how much the students are attached to the electronic media, rather than being involved in outdoor activities. Students are more social on the social media and lesser in their day to day lives. The parents play the most important role in the upbringing of their child and can help their kids take advantage of the Internet without falling victim to its risks, hence they need to be updated and made aware of all the safety measures they can take for online safety and keep on discussing the Dos and Don'ts on the internet with their child. A survey was conducted on Cyber Safety awareness on 5th August 2017. The students of classes IV & V gathered data from this survey and processed it further in order to draw inferences under the guidance of their ICT teachers. The results were alarming and are herewith shared with you.

How many hours does your child spend with the electronic media in a day?

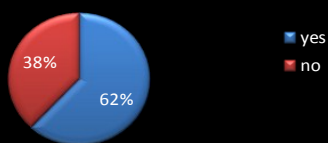

How many hours in a week does your child play outdoor games

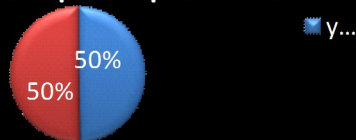

About 41% of students play outdoor games less than 5 hours a week whereas 56% of them spend more than 7 hours a week with the electronic media. 🙄

Do you use the Parental control option on your electronic devices?

Only 38% parents do not use Parental controls on electronic devices. 😬

Does your child know your mobile phone password?

50% of the students know the passwords of the parents mobile phones. 😱

Do you know where should you report in case of cyber bullying or when you come across abusive material online?

In case of Cyber bullying please contact Cyber Crime Investigation Cell  
You can also report your complain at [www.iwf.org.uk](http://www.iwf.org.uk).
