Circular No.22/2017-18

Date : 05 Aug, 2017

Dear Parent,

Keeping in sync with the newer technology, we at Bal Bharati Public School, Noida always try to provide students with world-class facilities. One such amenity being the vending machine installed in the Medical Room of the School. Having received feedback from the girl students regarding the same, we would like to apprise you of our endeavor that promotes advocacy and spreads awareness about the importance of good hygienic practices.

It is essential for the mothers to educate their daughters and make them understand the importance of using sanitary napkins. Also, in case of extreme emergencies, they can keep Rs.10/- for using the vending machine.

Menstrual hygiene management is a priority and it is a request that the female pupils be taught healthy practices to face such predicaments.

Asha Prabhakar
