

## ADAPTATION WEEK REPORT

Welcoming the children...

Bal Bharati Public School, Noida , earmarked the first few days of the session as Adaptation Week, beginning from 31<sup>ST</sup> Mar to 7<sup>th</sup> April, 2017 ,through various fun filled activities. The children felt elated riding bicycles and tricycles in the Montessori courtyard. The water tables and sand pit were the centre of attraction as the children enjoyed pouring and splashing water and felt the free flow of sand through their little fingers.

Creating a healthy environment for learning and to make the child feel happy, various art and craft take away activities were planned, spreading over a period of six days. On the first day, the children made crowns out of glitter sheet and decorated it with smilies. They wore the beautiful crowns, and went back home feeling special with a caption 'I am unique' written on it.

Feeling Special!

Keep Smiling

On the second day, the children made coloured paper smilies and enhanced it by pasting googly eyes. The smilies were then pasted on ice cream sticks and carried by children with a message 'Keep Smiling'. On the third day, to give the children a festive feeling, the activity of imprinting the feet of Goddess Durga was done with fist printing .This sheet was sent home with best wishes for the Navratri festival.

On the fourth day ,an In House puppet show was arranged in the Montessori Courtyard .The story of the Lion and the Mouse was showcased with a message of everlasting friendship .To reinforce the message further , the children happily prepared a friendship card for their friends .The children were asked to name their friends ,which were written by the Class Teachers on their respective cards. The fifth day activity was based on caring for animals where the children were handed over stick puppets of their favourite animals . A discussion on 'My Favourite Animal' and 'caring for them' was done during the circle time. On the sixth day of the adaptation week ,a discussion on the students' favourite food and healthy eating habits was carried out in the respective classrooms followed by a colouring activity. The children filled colour in the food items eaten during summer season like mango, watermelon, ice cream etc.

Puppet Show

Summer Delight

The culmination of the Adaptation Week was an entertaining Magic Show which further helped the children to start enjoying the class activities and getting used to the daily routine.
