

Circular No.20/2018-19

Date : 01 June, 2018

**RUBIK CUBE CHAMPIONSHIP (PRIMARY SCHOOL)**

***'Education is not the learning of facts, but training the mind to think and act'***

**- Albert Einstein**

Dear Parent,

Rubik's Cube activity was introduced in session 2017-18 for primary classes as part of Mathematics curriculum. It is a great exercise for the brain as it improves eye-hand coordination, general concentration, problem-solving ability, short-term memory and spatial awareness. It gives exposure to algorithms and approach to mental programming and improves overall cognitive skills.

Since its introduction, a keen interest has been observed amongst the students to learn and master the art to solve it as quickly as possible. All the students took this activity enthusiastically and looking at the overwhelming response, it seems safe to surmise that this activity needs to be encouraged further.

Hence, in order to encourage and ensure mass participation of students a **Rubik's Cube Champ contest** will be organized for the Boys & Girls of primary wing, wherein 05 students from each class will be selected based on their performance in solving the Rubik's Cube during Maths Lab periods. The selected students will be trained for championship position in 02 categories tentatively in the month of October / November, 2018.

- Category -1 : Classes I & II
- Category -2 : Classes III to V

The Rubik Cube Champions (Boy & Girl Category) will be awarded a Trophy during the Annual Day.

It is hereby requested to the parents to extend their full cooperation in this effort to provide a wholesome learning experience of Rubik Cube to their wards during the summer break.
