INTRODUCTION

A workshop on Artificial Intelligence was conducted in DPSG (Ghaziabad) to empower the youth and develop a readiness for understanding and appreciating artificial intelligence and its applications in our lives.

It is a step by CBSE to enable the future generation of India to become “AI READY”. It was a comprehensive 3-Day workshop which emphasized on the following areas:

DETAILED REPORT

DAY 1

The first session was conducted to introduce us to the AI Curriculum. It aimed at developing the learner’s mind set and skill towards AI, it’s understandability and application. Impact of AI on sustainable development goals was also deliberated upon. The topic was explained effectively by conducting hands-on activities and playing games.

DAY 2

The resource persons helped us to gain awareness about AI bias, AI access and potential ethical considerations about AI through brainstorming sessions.

Concept of AI project framework was also introduced and discussed using presentations.

DAY 3

Basic concepts of Artificial Intelligence, Machine Language and Deep Learning along with Neural Network were discussed by means of videos and open source links.

Basic concept of Python was also introduced to us.

At the end of the training session Mr R.P. Singh (Joint Secretary, Skill Education & Training, C.B.S.E) discussed issues related to AI with the participants and distributed the certificates.
