Report on Java Coder Programme- by LEARNSLATE

LEARNSLATE conducted a demo session on Java module with the computer faculty in for demonstrating lesson 1 which they planned to test run with class VII. Suggestions were invited from all five computer teachers and implemented accordingly.

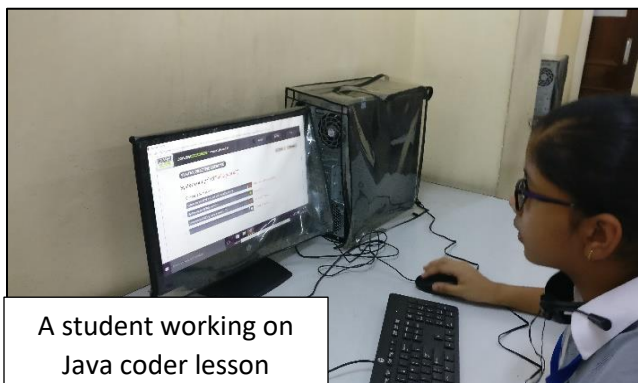

Thereafter a trial class was conducted on with 25 students of class VII . Video based learning was done by students for Lesson 1 and 2 of Module 1. To facilitate the test run, 25 headphones were provided by the team to the students. Students could listen to the video and answer MCQ questions based on it. The module was interactive and emphasized on step-by-step learning for students. Learnslate team alongwith its members headed by Mr. Rajeev Chaudhary helped the students to work on the lessons. Feedback of the students were also taken whereby students discussed the problems faced by them.

The team has commenced with the classes in class VII. The handouts prepared by Learnslate in consultation with the IT faculty. Each student has been provided a unique ID and a password through which they are able to access the JAVA online lessons whenever they want.

The response of the students for classes was overwhelming and they were excited to be a part of the session.
