Some glimpses of the trial session for e-MUN.....

Needless to say, the pandemic has transformed the centuries-old, chalk-talk teaching model to one driven by technology. This disruption in the delivery of education is us to figure out how to drive people's engagement on a huge scale while ensuring inclusive e-learning solutions and grasping the digital divide. Finally on the day of the event i.e.: 23.05.2020. The students were thrilled to be a part of the programme where they discussed and conveyed their concerns on the economy affected by COVID-19.

The MUN focused on getting more acquainted with the Model UN system, through the usage of the ONE simplest MUN committees, **UN General Assembly**. The former allowed students to act as representatives of an international government, and the latter, as a famous national political leader. Students learnt a lot from this e- MUN experience which served as a stepping stone for participation in possibly many forthcoming MUNs.

A heated debate took place among the delegates and the following are the list of winners :
