1 . Content of the Workshop/Seminar-

An Art workshop was held on 23 and 24 October to identify the diverse talent of children with special needs enrolled with CFSI in the primary and middle wing. The two days workshop included activities like Drawing, painting , jewelry making and paper folding. Children were encouraged to participate in all the activities so that the interest of each student could be determined and these students could also contribute in the art exhibition which would be conducted in this academic session. It was delight to see these students actively engaged in art and craft activities. Despite their disabilities they created beautiful art work. With regular training and encouragement some of them could develop these skills further.
