Portfolio Pearl Academy-2019

Date: 3.May.2019

Venue: Pearl Academy, B-25/1-4, Sector – 59, Noida

Attended by: Ms. Neha Gupta & Home Science students of class 12th

In the wake of advanced technologies, design has emerged as a new-age career option for students in today's world. It offers myriad learnings in creativity backed by great career growth.

- In continuation of our endeavour to provide experiential learning to our students for their overall development and help them make informed choices about their future course of academics, a visit to Pearl Academy for an exhibition cum workshop on 03 May, 2019 (Friday) a platform where students witnessed creative masterpieces of the college students, as they define the future of Design, Fashion and Business.

- The students of class 12th were taken to Pearl Academy, during the visit 7 workshops was organized including Fashion, Interior, Media, Business, jewellery designing and few more, one could participate in. Each student was asked to choose one stream of workshop.
- The students dispersed into their separate workshops chosen by them, which lasted about an hour. In the workshops students were taught about their respective activities.
- Then an activity was conducted in each workshop where the students were taught how to create new designs and material. For example, in the fashion designing workshop, the students were taught about printing. They were given cloth bags on which they put a pattern and printed it with various colours.
- After the workshop was done, the students visited the exhibition, which was very well designed. There were also students of other schools and the university itself and the students interacted with them to get more insight of the designing field.
- Overall, it was a very good experience for the students as they got to learn more about various techniques of designing in their own fields and how to create them. Also, it was a nudge to the various career possibilities for the students in the field of art. We look forward to more such workshops.
- A teacher's workshop on basic styling was also conducted. This was a great experience for all of us.

Students work on display during the exhibition
