

## **WORLD EARTH DAY 22<sup>nd</sup> APRIL 2020**

**(FROM THE DESK OF ENVIRONMENT CLUB)**

***Our environment is our heritage and our legacy, that we have inherited.  
Together, we can chart a path to a cleaner, greener world.***

Dear Stake Holders,

Earth Day is celebrated on April 22 every year and this year we mark 50 years of Earth Day. We celebrate Earth's 50<sup>th</sup> Anniversary being indoors but by going **digital**. The world's largest civic event is going digital for the first time in its history.

In present scenario, we need to be showing our true care and concern for our nation and as well as our Mother Earth by being indoors. Let's **take part in the world's largest citizen initiative**.

Despite that amazing success and decades of environmental progress, we find ourselves facing an even more dire, almost existential, set of global environmental challenges like recently the unexpected rains hitting badly the wheat crops, from loss of biodiversity to climate change. The theme for 2020, "**Climate Action**," is a call for action by all of us. Let us come together to combat the great environmental challenges of our time by following simple yet effective tips to save our Earth. Please visit <https://youtu.be/Ok8rMT2KCy0> and be part of digital events on this day.

I, therefore, request parents and their wards to follow some practices as given in link and cut down their **carbon footprint** by doing a small bit to keep the planet clean, green and alive. **We must stay and act together .A nation in one thought and in one action.**

- Please visit <https://www.earthday.org/take-action-now/>.
- Please watch a documentary **INDIA-2050'** to be aired on **DISCOVERY CHANNEL** on April 22, 2020 at 7pm.

***The world needs us — and our actions — for Earth Day 2020.  
'Lets take a pledge to make everyday be an Earth day'***
