Circular No.91/2019-20

Date: 11 Dec, 2019

LET'S BE THE CHANGE WE WANT TO SEE IN THE WORLD

Dear Parents/Staff,

Bal Bharati Public School Noida is a Plastic free zone.

Let's walk the path of greener and healthy Earth and transform our workplace and homes by switching over one or two items at a time with environmentally friendly products.

We can adopt some of the best environmentally friendly ways to help reduce our workplace / home carbon footprint.

- Recycled Paper Products.** Be it writing pads, bookmarks, diaries, recycled paper products now come in many forms. A green revolution in this area of usage will have a particularly positive impact considering how frequently paper products are used by us.
- Ecofriendly Press.** Yes, even pens can be toxic if it's not ecofriendly. Let's practice using biodegradable pens made from renewable materials which are an amazing way to make our workplace greener.
- Jute/Cloth Bags.** We all know about the harm that plastic does to us. A good quality jute bag can obviously beat those harmful plastic bags we've to carry to our workplace or homes with lunch boxes, groceries and other stuff.
- Bamboo Bottles.** Bamboo Bottles should now be our priority pick over those plastic bottles which harm our environment in many ways. It isn't only easy to handle but also maneuvers.
- Bamboo Brush.** Let's encourage everyone to start their morning with brushes made of bamboo instead of plastics to have a great start of the day with a greener impact on the environment.

A STEP TOWARDS BETTER TOMORROW

Say No To Single Use Plastic Bags

Say 'NO' to Plastics. Plastics in any form or of any quality are harmful to health.
