**RUBIK'S CUBE CLUB**

**CLASS : I-V**

*"If you are curious, you'll find the puzzles around you. If you are determined, you will solve them."*  
-Erno Rubik

Dear Parent,

Solving Rubik's is a great exercise for the brain as it improves eye-hand coordination, general concentration, problem-solving ability, short-term memory and spatial awareness. It gives exposure to algorithms and approach to mental programming and improves overall cognitive skills.

Rubik's Cube activity was introduced in the session 2016-17 for primary classes as part of Mathematics curriculum. Since its introduction, a keen interest has been observed amongst the student to learn and master the art of solving it as quickly as possible. In the session 2018-19 the school organized first ever **Rubik's cube championship** for primary wing students. Nearly 200 students took part in the championship at various stages. The top ten finalists of **Rubik's cube championship** could solve the complete cube in less than 1 minute.

In order to further hone skill and encourage mass participation in the forthcoming championship, the school is introducing **The Rubik's Cube Club** for the students of primary wing. The training to master the art of solving different types of cubes will be provided by an **outsourced faculty** to the students on **first and third working Saturdays** of every month. Criterion for selection to **Rubik's Cube Club** is the ability to solve the complete cube in less than 1 minute. The timing for the club will be 8 am to 10 am.

For **Rubik's cube championship 2019 -20**, 8 students (4 girls and 4 boys) from each section will be selected based on their performance in solving the Rubik's cube during maths lab periods. The selected students will further compete for championship positions for 2 categories tentatively in the month of November 2019.

- **Category-1: Classes I & II ( B/G)**
- **Category-2: Classes III to V ( B/G)**

The Rubik's Cube Champions will be awarded a **letter of appreciation and prize** during the Annual Function. It's our proud privilege to request parents to extend their full cooperation in this effort to provide a wholesome learning experience to their wards.
