

## My Favourite Fruit (Plasticine Modelling) - Class Activity

*'The Mind zoos when it comes to Craft something Unique.'*

My Favourite Fruit (Plasticine Modelling), a class activity was held for the students of Grade 2 on 24<sup>th</sup> April 2019.

Shaping up ones artistic prowess; the little sculptors moulded the Plasticine Clay into anyone of their favourite fruits. The activity served as a platform to the little ones to display their latent potential.

The artifacts wore a million dollar look when the tiny hands mutated the clay into the form of their much liked fruit. Such an incredible handiwork that the concealed knack of all came into limelight.

Every piece was one of its kind. The delightful countenance of each one indicated the level of enjoyment towards the activity.

Amusing moments were captured. Here they are for your glance.

**TRYING TO TOUCH THE CREATIVE FINENESS**

**YOUNG HANDS AT WORK**

**THE CAPTIVATING ARTIFACTS**
