Circular No.21/2018-19

Date : 05 June, 2018

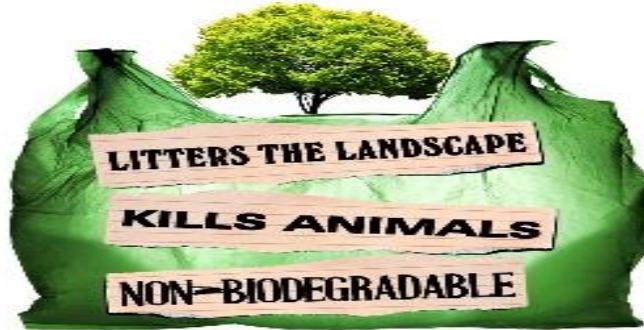

**WORLD ENVIRONMENT DAY- 05 JUNE, 2018**

*“Reject single-use plastic. Refuse what you can't re-use.  
Together, we can chart a path to a cleaner, greener world.”*

*— António Guterres,  
UN Secretary, General.*

Dear Stake Holder,

The theme for 2018, “**Beat Plastic Pollution**,” is a call for all of us to come together to combat one of the greatest environmental challenges of our time.

Plastic bags are used by everybody, from a vegetable vendor to a designer store, everyone seems to use them. Even though they are one of the modern conveniences that we seem to be unable to do without, *they are responsible for causing pollution, killing wildlife, and using up the precious resources of the Earth.* But, most of us are blissfully unaware of the repercussions that are occurring and will take place in the future because of the plastic bags which are non-biodegradable and not easy to recycle. While plastic has many valuable uses, we have become over-reliant on single-use plastic items with severe environmental consequences

It is a call for all of us to consider how we can make changes in our everyday lives to reduce the heavy burden of plastic pollution on our nature, our wildlife and our own health. I strongly believe together, we can chart a path to a cleaner, greener world.

I, therefore, request the parents and their wards to follow the below mentioned practices to cut down the plastic footprint and contribute their individual bit to keep our planet EARTH clean and green.

- Use reusable bags at the grocery store, preferably cotton/jute bags.
- Avoid using plastic straws, spoons, forks and other disposable plastic items.
- Reuse plastic containers as much as possible or practice purchasing steel containers.
- Reuse plastic water bottles/ tiffin boxes.
- Carry your own water bottle instead of buying bottled water.
- Avoid excessive food packaging by purchasing food, like cereal, pulses, and rice in bulk and store in reusable bag or container. By doing so we can save money as well as unnecessary packaging.
