Solution of relation and function	Oral assessment during online class is conducted	Sharing of soft copy of Relations and functions and continuity and differentiability.(ncert)using google meet. Sharing and explanation of solution of ncert questions along with extra questions.(Hand written)

## Feedback Received

The online classes are progressing quite proficiently. In this time of difficulty, the online classes has proved to be an effective way of learning. Though initially there were some complications, but due to cooperation and understanding from both students and teachers, things are going smoothly. The support and encouragement which we are getting from our teachers and school, is commendable. Overall it is a good progress...

Online classes can be termed as a success for my ward as it has taught him discipline like being punctual with the timings . Still he lacks in concentration during the online classes . I believe that online classes are very effective in short term but not that much in long term . Still I would say that the school authority took the right decision for online classes as it's the only way to study in current condition . Regards .
