### Feedback Received

The online classes are going well and we are able to grasp the concepts well. A little inconvenience was there as teachers were busy with board checking due to which substitutions were placed. But the overall results are exemplary and teachers are helping us in every way.

In today's situation the main stress students were facing was related to their studies. Online classes have solved their problem to a large extent and helped in reducing their stress level. They are getting proper guidance from the concerned teachers who are trying their best to help these students. It's a very good effort from the school to take care of students in such situation.
