

""The mind is not a vessel to be filled but a fire to be ignited." - Plutarch

Igniting the young minds is an important responsibility of a teacher. We plan, prepare, analyse and deliver all that is good to keep the grey cells of our learners active. Fighting the odds our learners too zealously initiates and delivers all that is assigned to them. These testing times have made us courageous, independent and all the more productive. With the positive spirit in our heart we look forward to enlighten the lives of our beloved students.
