FEEDBACK OF PARENTS

I would like to share my experience and Riana too for the activity covid combat.

Riana enjoyed a lot doing the activity specially the tea card making and knowledge about washing hands and keeping ourselves safe. She also learned about new service providers like police, health care people, sanitation staff.

She enjoyed making card and fireless cooking was her favourite she acted like a chef and made nutritious chickpeas salad.

Hats off to you maam and entire team of Bal Bharati Public School, Noida.

Parent of Riana Malik- 1A

The activities given time to time are highly commendable. This is keeping lavishka busy and quiet enthusiastic.

The best part of these activities which I feel is that they are not monotonous and hence exposing kids to different little initiatives.

Like yesterday, it may seem small but while arranging salad, she got to know about different spices.

Parent of Lavishka - 1C

Feedback on COVID- 19 Activity

Good morning ma'am,
These type of activities not only help in covering school curriculum, but also keep the kids busy with enjoyable and educating activities. We, as parents, are grateful to the class teachers for their wonderful efforts.

Parent of Yashika -1C

I would first like to appreciate teachers for their support and school for the initiative taken by school to make students aware about surroundings . This made students know what to do and what not to do at the time of this crisis.

Parent of Yatharth Gupta- 1B

The way you teach the kids about the pandemic is excellent.... The activities prepared for kids were interesting in a manner that they love to do it... It is really a great initiative by you all to manage online classes as well as these activities.

COVID WORD OF THE DAY INITIATIVE

Vocabulary Sheets were shared with students twice this week to enhance the vocabulary efficiency of students. The word of the day was introduced by respective class teacher to acclimatize students with the word and its use. A word everyday certainly has brought good returns.

CFSI

Sessions of online classes were conducted to help children enrolled with **CFSI** to connect with their teachers in the morning as well as with the special educator in the afternoon. They enthusiastically wait for the sessions. Interaction with teachers gives them a feeling of contentment. Children have become habitual to attend the Google classes regularly and presented their beautiful work related to various activities.

Students are learning through the assignments uploaded in Google Classrooms; trying to take complete benefit of online education. Their exposure to various activities allows them to think critically and exhibit their latent talent. Activities related to Covid-19 are another addition to their academic arena. Incredible response has been received on these activities so far.
