## SCHOLASTIC WORK:

English, Social Studies, Maths, Science, Hindi, Sanskrit and Computer Science were taught to children using innovative methods of learning online. Teachers put in their best foot forward to engage learners in understanding the concepts.

In English, small clippings related to the chapter- Alice and the mouse were shown to incite the learners. Stories and facts about the writer Lewis Carroll was shared with the learners. This helped them relate to the chapter better.

In Social Studies, the lesson of Parallels and Meridians was taught using Jamboard, wherein they were taught the movement of latitudes and longitudes through online images. It was a fun experience for learners to learn without the use of books. Revision sheets were also given to the learners to recapitulate the facts better.
