Kunal's mother

1. Online classes are a bit of hassle but still the teachers are able to manage pretty well.
2. I think it'll be better if the students have holidays in between the exams.

XIKunal: Online classes are serving good for all the teacher and the student fraternity of the school. The students as well as teachers have something to do and keep themselves busy. Also, various features such as screen sharing provides a better platform for distribution and acquisition of knowledge. I think that the students should be given rest now by stopping the online classes or by decreasing the time of the classes, because due to School and Coaching classes the children suffer with eye pain and headaches.
