Feedback Received:

I, as a parent, would really like to put on record the great job which all of you are doing as teachers. We are really lucky to have such a strong faculty in the school of our children. Knowingly, my daughter, Gauri Gautam, XI B, has taken the difficult combination of PCM with eco. But she is not finding any hiccups in coping with these subjects. All the teachers are really putting great efforts in making all the students understand these practical subjects. Kudos and three cheers to all the teachers
