Special Education sessions were planned to enhance the grammar skills of the children as per the grade level. One session per week was taken by the School Counselor to supplement the academic growth of the students. In this session Pronouns were introduced. The concept was taught using videos and practice sheet. Worksheets were provided by the counsellor related to the topic covered in order to help students understand and learn the concept better. Students were encouraged to engage in physical indoor activities and participate in carrying out household chores.

Class & Section	No. Of Periods Per Week	Topic	Sub Topics	Assignments/ Link To Be Uploaded On Google Classroom	Assessment Given (Yes/No) Date Of The Assessment	Learning Outcome

PARENTS FEEDBACK

This is a nice and constructive effort from school and class teacher to start personalised teaching. It's of great help to my child and I hope it turns to be effective for others too.

Dwijesh could comfortably ask his doubts and clarify them. Thank you so much.;

- Parent of DWIJESH VA

Really appreciate the efforts the school is making to keep the children busy.

Parents of MAHIR V-B

We are delighted that our ward has been chosen as among very few of the student for the personality as well as communication skill development. During these personalised sessions he was taught about the Former President of South Africa. He has been assigned a role play about his personality. We wish everyone should be given an opportunities to develop such skills among themselves. Giving such a personal touch, not only increases the bonding between teacher & student but also gives a lot of confidence in overall development of the student. We sincerely appreciate the efforts taken by the school & the teachers.

- Parent of APOORV VB
