Feedback Received

I feel that the online classes are doing more than good due to the hard hours put in by our teachers. I feel that all subjects are going on pretty well. However, on a personal experience, I feel that the Chemistry syllabus is going faster than what is comfortable for me to comprehend the subject better. Finally, I would like to thank all my teachers for striving hard day and night for the smooth conduct of our studies.

Prakher Goel- 12 A

The decision to teach students via online classes has turned out to be great . Also,with the new timetable students are now getting ample time between school and coaching. Gradually things have improved a lot due to cooperation of both students and teachers .In the end I want to thank all the teachers for their extensive support.
