Good morning maa'm, It's a great effort to all of you. It's a new method of learning for students but still they are enjoying the class.  
Anirodh - 4D

In my opinion, the initiative that has been taken for online classes is very successful as children can focus more in online classes as compared to assignments only. All doubts faced by students are cleared then and there during online classes.

The supplementary material in the form of content provided by subject teachers is really very useful.
