

ACADEMIC SESSION 2020-21

CLASS I

FORTNIGHTLY REPORT: 11th January 2021 to 29th January 2021

INTRODUCTION

Growth in education rests in its ceaseless flow. Following this rule passionately students were introduced to Integrated Activities associated with CBSE initiative 'Ek Bharat Shrestha Bharat'. The topic created awareness amongst children about the diversity of our nation. The topic attached with scholastic subjects received a magnificent response. Students' diligence to attempt the task on various activities designed was par excellence. Students explored multiple perspectives of concepts, constructed knowledge of themes, subjects & concepts and were made aware of the inter-disciplinary connections. The evaluation of well-designed activities associated with integrated project undeniably shaped up the academic proficiency of each student. It led to a balanced approach by coping up with numerous activities.

ONLINE PTM (ROUND-3)

For healthy development of a child, a parent teacher interaction was scheduled starting from January 20th, 2021 in a staggered manner through google hangout meet. PTM slots were allotted as per the roll numbers of the child and shared through the class teachers. Agenda of the PTM was the regular attendance of the child in class, participation in various co-curricular activities, academic performance and progress and mental and emotional health of students. Parents of class 1 students were very happy and delighted to attend the online PTM sessions. With online classes going on during the pandemic period, it becomes very important that the parents and teachers should work as a team for overall child's growth. Parents were concerned about how and when will the regular classes start for students. Online PTM sessions served as a medium for parents to interact and discuss about various aspects with the teacher.

CONCLUSION

Integrated activities will develop a pluralistic approach and appreciate different possibilities. A mixed bag of activities structured under this approach aims to enrich the learners' scholastic parameters from all ends. Their thought process, creative excellence, recitation skills, quizzing etc. will certainly yield good returns. Students will benefit from this particular teaching pattern. The acquisition of knowledge is paramount from all sources. This teaching methodology is most desirable to prepare the little ones for a competitive world.
