

CONTINUATION OF ONLINE CLASSES

Dear Parent,

The positive feedback received for the ongoing digital classes has left us overwhelmed. You are hereby informed that online classes shall continue to take place as per schedule. We believe that during this tumultuous period, the continuation of teaching and learning activities would not only allow children to orient themselves towards academics, bridging any possible gaps, but would also enable them to sail through the chaos of the outside world. Virtual classes are a medium for children to keep themselves gainfully occupied and form fulfilling bonds with their teachers as well as peers.

To ensure an unhindered access to education, the school has also initiated an internal process for providing a suitable stream to the students of Class X and promoting them to Class XI. Subject allotment shall be done provisionally, based on an objective criterion developed for the assessment of the academic aptitude of learners. A comprehensive list with respective subjects allocated to the student shall be released by the school and online classes for Class XI shall commence shortly.

We hope that the painstaking efforts taken by the school shall find appreciation at your end. In spite of themselves being afflicted and saddled with the responsibility of COVID stricken family members, teachers have facilitated meaningful learning experiences to children in these disruptive times. The school is committed to put the needs of the learners above all else. We rely on your unrelenting support and cooperation for the fulfilment of our collective vision.

Warm Regards,

Asha Prabhakar
(Principal)
