

PRE-PRIMARY DEPARTMENT
BSA REPORT
“I Am Unique”
(Collage Making Activity)

★ Date: 28.04.21
★ Class: Pre School & Pre-Primary
★ Venue: Virtual Classroom

The activity began with the discussion about the family. The facilitator apprised the students about the family values, love and importance of the family in their growing years. She also made them understand that each child is unique in his/her own way. The children were also encouraged to talk about their likes and dislikes. Our tiny tots of Pre School and Pre-Primary participated in collage making activity in their respective virtual class rooms.

The kids showcased their talent of art beautifully by making the collage by drawing/pasting photographs of their childhood or pictures of things they like, on an old CD, old cardboard, or any other waste material they had at home. The students were guided to decorate the collage by using decorative materials e.g. stickers, sequins, glitters etc., under the guidance of their class teachers and parents. Children participated in the activity with a lot of passion.

Learning outcomes:

- Children learnt about the importance of family.
- The activity helped in enhancing their eye hand coordination, creativity and aesthetic skills.
- The activity helped in enhancing their verbal and communication skills.

Convenors:
Ms. S. Ghosh & Ms. N. Sharma

Ms. S. Passi
