Today's "reading club" session motivated my daughter to learn new vocabulary words and also helped her to be little creative in memorising those through book mark activity. The additional activity of "card making" is also helpful in engaging her during these difficult timings. I am thankful to all the hard working teachers for helping parents and making kids happy. Good Afternoon Ma'am, reading books is good but reading in order to discuss is even better. The inaugural was fun and surprising all along...I am sure it will show Aanya to learn from other's point of view...In order to discuss a book it will give her more focus and her reading will become more flavourful and more satisfying...So thank you Ma'am..looking forward for activities too come...I am excited too to read the books that will come along her way.

Wonderful class. Dhairya enjoyed a lot ... as the kids r unable to go out n play n they r physically very inactive .. this will help them to b active ... thank u so much for the great initiative... lovely way to keep the kids energy intact...However I would like u all to include some breathing exercise in n every class for 10 min at least which would help to increase their lungs capacity which would help them to fight with the virus in this difficult time ...

Thanks n Regards

Today's fitness class was very nice and interactive. My son Aarav enjoyed it a lot. Thank you.

This fitness camp is a very nice idea as all the kids are just sitting at home and they can't go out to play as well. This class was very interactive and the efforts of the incharges was visible by the way they guided the students and helped them stay fit. Wonderful idea for a camp as we all need to stay fit to build our immunity.
