

# AEROMODELLING CLUB

## CLASSES : VI-VIII

### REPORT FOR THE PERIOD – APRIL-MAY 2021

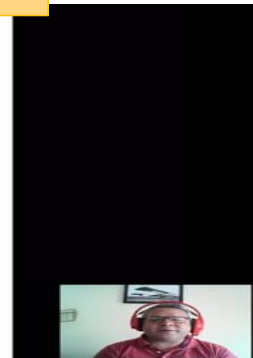

S. NO.	DATE/ MONTH	OBJECTIVE	ACTIVITY	LEARNING OUTCOME
01.	April – May	Through the activities, students will learn the basic concepts of Aerodynamics, their structure building and in-depth knowledge of the wonderful world of Aeromodelling. Students will learn and build models like pater planes and different types of paper plane aeromodels that will help them to understand the concepts of STEAM.	An introductory session was conducted by Mr. Anant for students, to make them aware of the different workshops that will be conducted during the session, Mode of conduction of workshops, kits/material which will be provided during the session.	We received a satisfactory response from students and many are willing to join the club.

### GLIMPSES OF THE ACTIVITIES UNDERTAKEN BY THE STUDENTS DURING THE PERIOD APRIL-MAY 21 :

Students attended the orientation Program on Zoom

Let's begin by saluting the Wright brothers who made Flight possible!

**Teacher In-charges: Ms. Swati C. and Mr. Prabhat M.**
