

WORLD ENVIRONMENT DAY -05 JUNE, 2021 **(FROM THE DESK OF ENVIRONMENT CLUB)**

***Our environment is our heritage and legacy, that we have inherited.
 Together, we can chart a path to a cleaner, greener world.***

Dear Stakeholders,

World Environment Day is celebrated on 5th June every year.

Since we are facing pandemic, it is being celebrated digitally. We need to be showing our care and concern for society, nation as well as our environment by being the green ambassadors in a true sense.

The theme for 2021, "**Restoring Ecosystem**" is a call for action to come together to combat the environmental challenges by following simple yet effective steps. There is so much we can do to help, protect, and **restore our planet**. Let us be the change to bring the change.

Let us do our bit :

1. Let us live mindfully to save our environment by following the rules of wearing a mask and safe distancing to save the human lives.
2. Plant as many trees as possible. They are our oxygen tanks.
3. Practice Rethink & Repurpose, Reduce, Reuse and Recycle.
4. Conserve water and electricity.
5. Think about your diet – Adopt a more plant-based diet.
6. Minimize the use of plastics as they are destroying our ecosystem.
7. Use organic and ecofriendly products to save environment.
8. Try to compost waste to help the environment become clean and green.
9. Change your lifestyle by adopting minimalism. Buy only if needed.
10. Use less processed food items to save the energy consumption.
11. Dispose of your masks and gloves carefully in a paper bag after disinfecting and cutting them into two pieces to avoid reuse.
12. Let us be empathetic towards nature,
13. Let us innovate, create solutions to work for our environment.

"LET'S NURTURE THE NATURE SO THAT WE CAN HAVE A BETTER FUTURE."
