

**PRE-PRIMARY DEPARTMENT
ENVIRONMENT DAY REPORT (5th June '21)**

Environment Day

Environment Day is celebrated on 5th June every year since 1974. Considering the current scenario, we all agree that sustainability is the need of the hour.

We, at Bal Bharati Public School, strongly believe that our young Bal Bharatians can contribute to the damage control of our planet's long exploited and destroyed ecosystem.

To familiarize them with the environmental concerns and issues, an awareness drive was planned for the young Pre-Primary children through a PPT. Videos on the topics like do's & don'ts, save water, electricity and resources were shown to the students to enhance their knowledge. General discussion was held on the concept of 3Rs - Reduce, Reuse, Recycle and the importance of plants. The facilitators emphasised upon planting more trees through rhymes, dance and songs.

Children prepared colourful badges related to the theme 'Save Environment' and became our proud, young Environment Ambassadors.

To conclude the series of activities, an age appropriate quiz based on 'Save Environment' was conducted on 7th June 2021. Children participated in the quiz very actively and enthusiastically.

Our young learners have definitely understood the importance of restoring the ecosystem through the plethora of activities.

A small contribution goes a long way!
