

Activities Conducted by CFSI Department in the month of July

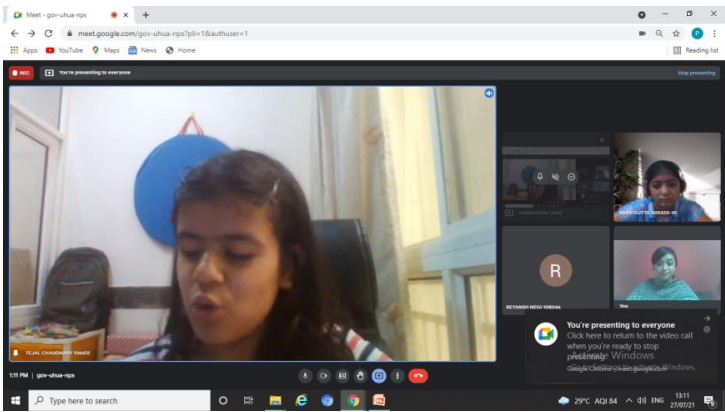

Activity Topic- PLANT YOUR CROP

(Done with children enrolled with CFSI-Middle wing)

The existence of trees is very vital for our living. Trees enhance the environment and take care of most of our needs. All forms of life are directly or indirectly dependent upon it. From the roots to its leaves, every part of it provides us with some benefit or the other. In India, there are different types of trees which are considered to be sacred and are worshipped. India celebrates one week of tree planting in the first week of July called the [Van Mahotsav](#).

Keeping in mind the above stated objectives the following activity was undertaken for the Differently Aabled Students enrolled with CFSI during the month of July 2021 to create the awareness among them on the importance of tress and also make them sensitive towards the environment. Students have planted the seed and they have also prepared the speech for the group discussion on the topic- **WHY TRESS MATTER**. Ridhi Dutta (9-D) has also prepared a Power point presentation on the topic.

GLIMPSE OF THE ACTIVITY

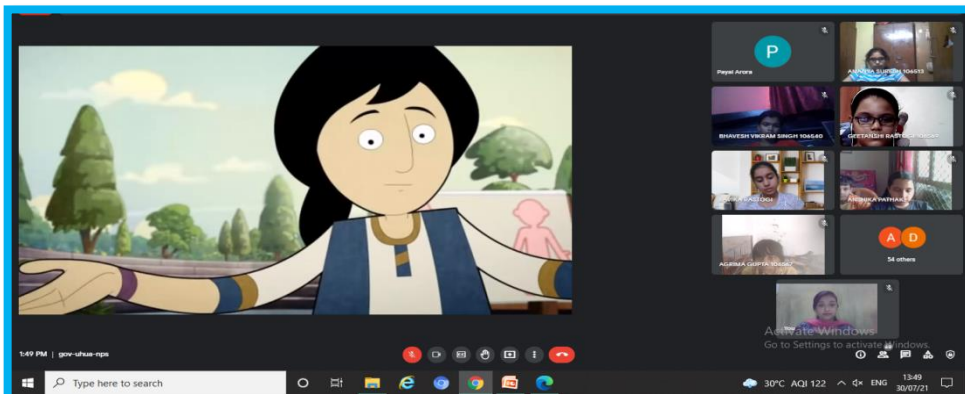

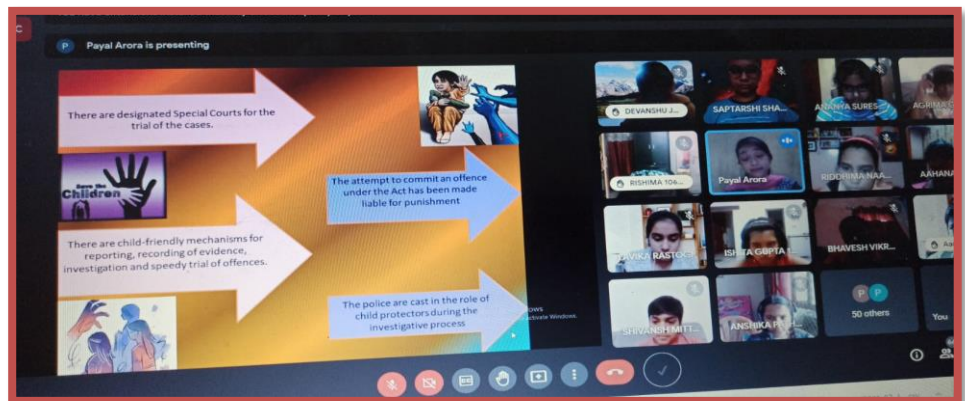

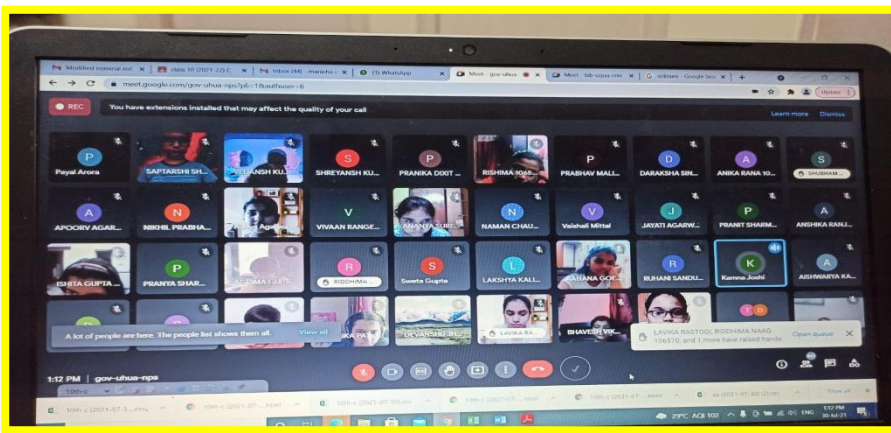

Webinar on POCSO ACT:

Protection of Children from Sexual Offences

Educators play a key role in protecting children from sexual abuse. They can build student supports for understanding and reporting abuse, and foster students' safety by establishing and enforcing preventative policies and procedures in school settings. Understanding the educator role in the safety and support of children can help keep them safe from abuse.

To fulfill the above stated objective a Webinar was organized on POCSO Act for class 6th students. The main motto of the Webinar was to raise awareness about Child Sexual Abuse and information on the Protection of Child from Sexual Offences Act (POCSO Act).
