PARENTS' TESTIMONIALS

RECREATIONAL ACTIVITIES

Hello ma'am, This was really a great session. A great start for understanding 3 d structure.

P/O Chaitanya Mittal (PP A)

I am happy to see my child's progress and in parallel his learning curve with the virtual classes. The basic concepts are taught in a fun learning way which makes them more interesting for the kids. I am thankful to the teachers.

Pooja Jindal, Mother of Anvay Jindal (PP A)

The cube making activity was super engaging activity for kids. Through these activities kids learn about new things. We really appreciate BBPS Noida teachers who always show their patience and engage student in these learning activities.

Mother of Ira Rawat (PP D)

Ma'am it was a fun activity and Saksham enjoyed it a lot along with his class mates and brother. Even after the class he played with the cube that was made out of origami sheet. Thanks for this activity

P/O Saksham Baveja (PP D)

It was really good activity for students to they got to know about a new shape, about cube. Vaidehi enjoyed d activity. Thank u mam for your efforts.

P/O Vaidehi Bhamoria PP D

There is a say that one practical is better than 100 theory and so was this activity. In this child learnt that how a cube actually looks like and after this activity they are quite clear about the 6 surfaces and shape of cube. It also gives an idea about the 3D shape which makes it different from a single dimension square.

P/O Abram Kulshrestha PP D

Dear Mam, Kiyara really enjoyed the activity and got a chance to learn about 3D shapes. It was totally a new journey of shapes that she had gone through.

P/O Kiyara Dimri PP D

The recreational activities taught by the school are really innovative and interesting, teachers make the online class so convenient for the kids that my ward Gouravi with little guidance can make things on their own.

P/O Gouravi Prashar (PP D)

It was wonderful learning and creative activity, where my child learnt to make cube and also able to differentiate between 2-D and 3-D shapes. Thanks a lot for your effort ma'am.

P/O Parv SHAH (PP D)

BSA Activity session was creative. It was very helpful to differentiate b/w 2 D & 3D shapes. Thanks to all the teachers for such activities.

Regards

P/O Arushi (PPE)

The on-going virtual classes are really making an impact on the overall academic performance of the child. My kid is learning new things taught in class with great interest. Though, nothing can replace the real classroom but in this tough time of pandemic, virtual classrooms are or can be considered the best way to educate these tiny tots and keep them engaging throughout the session. Keep up the good work! Best wishes,
Dr. Anshul Kulshrestha,
F/o Arshiv Kulshrestha, (PP-F)

I would like to thank you for all the hard work and guidance from your side helping in overall growth and learning of my kid during the online classes. Specifically, mam you are quick to respond to our queries and their resolution.

Mother of Parisha Rai, (PP-C)

My child is always excited about these online sessions. As parents, this has given us the opportunity to experience and see what our children are learning through these interactive sessions. We all are very happy and thankful for the stupendous amount of effort put in to mitigate the challenges during the lockdown.

P/O Advait Khanwalkar (PP C)

Thank you Nitika Ma'am for your patience, flexibility and compassion during online classes you provide for kids. It's challenging to virtually teach and handle kids who are very new to online mode of classes and even first experience of schooling. We see the steps you are taking to stay connected efficiently during online classes with students and adapt your practice and we appreciate your efforts. We appreciate you and we applaud you!

P/O Saanvi Yadav (PSC)

Thanks to Kuldeep ma'am for organising this activity. Making homemade mango yogurt is a fun way for kids and we also enjoyed a lot this yummy smoothie and it's faster process for kids to make this.

P/O Tavgun Kaur (PS B)

Good afternoon ma'am. Anav n Anay were able to grasp writing 1-30. They are putting effort to understand 10's n 1's concept. Hindi letter 'da' also they learnt n wrote and drew different words. The activity of heart shape also was interesting. English words creation also they are trying to understand. Thanks for all the effort taken in preparation of material and simplifying in imparting them is

exemplary. We are putting effort to increase their concentration by involving them in painting n crafts as suggested by you. Which they enjoy lot. Also they are given daily cleaning tasks to clear their toys n put them in their boxes.

Regards.

Anav & Anay father (PP B)
