Divyansh enjoyed a lot doing this cube activity. He likes making objects with papers. From selection of different color origami sheet to folding and making side and finally making it dice, he enjoyed each step. He was not able to fixed the sides, but with our help he learned that. He enjoyed the last step of numbering on sides. He even played with it whole day. He was very excited to show it to everyone.

Veda has learned to use and understand golden words follows good habits eg. use trash can for trash, clean her room, place her toys, shares her toys, greets elders. She enjoyed vegetable and palm printing. She tries to speak shloka "kragre vaste Lakshmi" in the morning regularly and teach us. She has started identifying the shapes in her surroundings, summer vegetables and fruits.

For all these changes in Veda, thanks to you Kuldeep ma'am and your lovely teaching methods.
