

BAL SABHA ACTIVITY (2021-22)
PEEK-A-BOO: PINHOLE CAMERA MAKING

CLASSES: IV-V

“When you look at the stars and the galaxy, you feel that you are not just from any particular piece of land, but from the solar system.”

-Kalpana Chawla

FUN FACT! Did you know that the word Camera comes from the Latin word for room? YES! The very first cameras were known as *camera obscura* that translates to “darkened room”. Well, it is time to learn more about cameras and what better way to do that than to make our very own *Pinhole Camera*!

Instructions:

-  Students will **make a working model of a Pinhole Camera.**
-  They will record a short video of their respective pinhole camera working model and also click a picture with their model.
-  The students shall upload their videos and pictures to the “Pinhole Camera Making” assignment under Bal Sabha Activities channel on MS Teams.
-  Last date for uploading of videos and pictures is 27th September, 2021.

Date: 21.09.2021
