Bal Bharati PUBLIC SCHOOL
Sector-21, Noida, G.B. Nagar

(1st September – 31st September 2021)
CLASS V

"Live rightly, think rightly, act rightly." -Mahatma Gandhi."

All educators, parents and education law-makers believe that environment plays a major role in bringing out personality of a human. Along with curriculum-based elements of education, moral, physical and emotional aspects are also important for students. And we understand that. We believe that a positive environment improves happiness, attendance, engagement and positive learning. Thus, we create, nurture and promote a positive and healthy environment for our students to make them feel safe to express, grow and learn everything they can to be good humans.

Being a human of worth is the ultimate purpose of education. Living rightly by doing things with good intentions, having thoughts that are kind to others and self and acting upon good thoughts is what every human should learn. We at Bal Bharati try our best to bring the best out of our students. Moral and physical development for all our students is an important goal to us and thus we try and ensure that all our students are well-aware of their duties and responsibilities as a student and future citizen.
