

CALLIGRAM MAKING

Date: 22.09.21

Classes: I-III

“Peace is not the highest goal in life. It is the most fundamental requirement.”

We live in a world of plenty that prioritises abundance, yet our brains have evolved to cope with scarcity, not ‘abundance and plenty’.

Cultivating compassion – towards ourselves and others – is a way forward that is both healing and unifying. With the same vision, Bal Bharati Public School organised “Calligram making” activity on the theme **‘Peace, Compassion, Kindness and Hope.’**

Students demonstrated their creativity by creating innovative and presentable calligrams which shared a message of clinging onto kindness and hope, if facing any crisis. Through the calligrams, the meanings of the words could be visualized using only the graphic elements of the letters forming the word. Calligram captures the attention of the audience and our young innovative thinkers were surely successful in that, with their remarkable creativity.

Here are some calligrams conveying meaning through the presentation of artistic work
