

REPORT

BAL SABHA ACTIVITY – PAPER PLATE UFO

CLASSES – 1 & 2

WORLD SPACE WEEK

4.10.2021

The universe said, “Let me show your soul something beautiful.”
Aberjhani

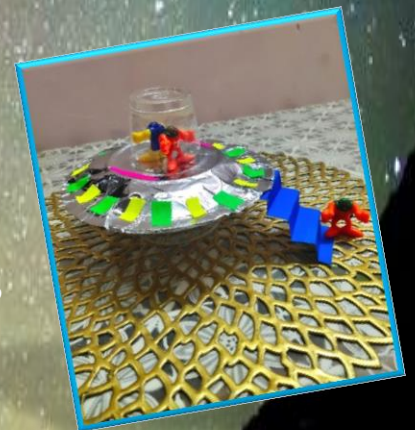

World Space Week is an international celebration for contributions of space science and technology to the betterment of the human condition.

To educate and create interest towards space exploration among our young learners, Paper Plate UFO making activity was conducted for classes 1 & 2. The students came up with out of the box ideas and presented their work beautifully.

The activity was conducted online and the class teacher explained the students about UFO and the possibility of having alien life on other planets.

Students thoroughly enjoyed and participated in the class discussion. They uploaded their work on MS Teams platform and here are a few glimpses of the activity.

Convenor: Ms. Pooja Kapoor
