NUMBER OF SCHOOLS WITH DRINKING WATER INCREASED

1.36 MILLION in 2012-2013

200,000 CHILDREN DIE

DIARRHEA

Targets 2030

- Achieve universal and equitable access to safe and affordable drinking water for all.
- Achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls.
- Improve water quality by reducing pollution, minimising release of hazardous materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.
