A story telling session was organized integrating exercises and yoga to remain fit and healthy.

SDG – DAY 4 FIRST AID FIRST AID BOX MAKING (18.11.2021)

Children made their own First Aid box using shoe box, sanitizer, dettol, cotton, tweezer, bandage. They also learnt how immediate treatment can reduce the risk.

DEPARTMENT: PRE PRIMARY PARENTS' FEEDBACK

This was really great initiative from school to discuss about health and well-being of kids and devoting another week to safety. Kids enjoyed each activity and along with that also learnt about healthy habits they should adopt. Safety week gave them opportunity to learn about safety measures need to be followed in various areas. Special thanks to Teachers who made this learning experience easygoing and enjoyable for kids.

Safety week was a much-needed knowledge to be imparted to the young minds although we as parent keep guiding them but the way teachers picked up the concept covering all aspects from online to being on road was a boon.

Thank you so much!

P/O Tavgun Kaur PSB

We appreciate the safety week initiative by Bal Bharati.

It was very educational and beneficial for children and helps parents to make their child understand the precautions they need to practise in day-to-day life.

P/O Avyaan Tripathi PSC

Mam..the safety activities taught during the week were quite informative and were taught in playful manner that kids enjoyed while learning.

P/O Divyansh Prasad PS D

Safety week organized by Bal Bharati Public school was a nice experience for kids as well as parents, as it also motivated parents to focus on these areas for overall development of their children.

Dear Maam, The Whole concept of conducting safety week sessions was quite prolific for my kid and I am sure it would have helped widely for all kids. Aishaani Could co relate Instructions received from teachers during this safety classes to what we as parent keep telling her and it had very positive impact on her. I wish if kids could attend these classes physically with more of practical teaching, however its unprecedent time for teacher as well kid +parents. Rest I would say the whole content of safety week was nicely conceptualized and presented to kids with keeping in mind constraint of online classes!!
