#CLIMATE ACTION CAMPAIGN

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Efficient use of natural resources

Chemicals and waste management

Reduce, recycle and reuse

Sustainability reporting

Sustainable procurement

There's something better than an 'excuse' for your mistake, which is 'now you know how to stop it from happening again'.

The public is kept informed and educated about a harmonious life with nature

The use of harmful chemicals is prohibited

"Environment is no one's property to destroy; It's everyone's responsibility to protect."
