

# Feedback on Storyweaver App and Usage

**“Today a reader, tomorrow a leader.” –  
Margaret Fuller**

With Bal Bharti's initiative of contributing to CBSE reading mission, and giving them the platform of story weaver, I have seen a lot of interest towards reading in my ward. He has improved upon his reading skills and also also takes interest in storytelling. The class teacher also dedicates time for students to read stories from story weaver in the class and in personalized classes. And keeps on motivating students towards building a reading habit. Normal curriculum is followed in every school, but I would say that this is a very good move towards overall development of child.

Story weaver is very helpful in developing cognitive skills and creativity among the children which is much needed part at their age. Weaving Imaginative and adventurous stories with thought provoking fun that is what my child learnt from the story weaver. And yes its beautifully integrated with classroom learning by teachers.

**Parent of Advika Rai (Class I-E)**

StoryWeaver is a great platform for kids. It develops their interest in reading multilingual stories.

The feature of 'read along' also help the kids in improving their pronunciation. My child likes to read stories not only related to syllabus but otherwise also from storyweaver.

Parent of Reyaansh Nigam (Class I-F)

I am happy Storyweaver is used for reading activities. Kids get a chance to read new stories apart from text book. This will enhance kids reading skill and use of new vocabulary words

Parent of Ojash Pratap Rao (Class II-A)

Storyweaver has put a great impact on my child reading skills now she is able to read properly and she has taken more interest in reading because stories there are so good that she love to read stories from there all the time. I am much happy that she is not taking reading as burden these days and she loves to read.

Margaret Fuller**

The story weaver is a great initiative by the school to inculcate healthy reading habits among students. The different activities based on the stories also help enhance their vocabulary and fluency in speaking.  
Regards

Parent of Vibhuti Marwaha (Class II-C)
