CLASS III

“True learning is changing from being dependent to being dependable”

A strong base of knowledge helps the brain function more smoothly and effectively. It enhances the overall personality and focuses on the aspect of holistic development. We become smarter with the power of knowledge and solve problems more easily. With the same purpose in mind, the online teaching for grade III was taken up from 1st Oct 2021 – 31st Oct 2021. To explain and elucidate the contents, the students were facilitated by the teachers with assignments, notes, presentations, YouTube links, PPT's etc. The academic activities were designed with the motive to ensure that we articulate our learning goals of achieving FLN (Foundational Literacy and Numeracy). To assess the learning outcomes, various parameters like oral work, vocabulary sheets, critical thinking sheets, integrated projects, subject enrichment exercises and critical thinking worksheets were used as resource material for an effective and efficient teaching learning process. The online teaching continued with great zeal. Students engrossed themselves in the classes. Personalized teaching to extra support groups of students was also given for their betterment.
