PRE PRIMARY DEPARTMENT
MONTHLY REPORT
1ST FEBRUARY TO 28TH FEBRUARY 2022
CLASS-PRE SCHOOL

THEME OF THE MONTH- PLANTS

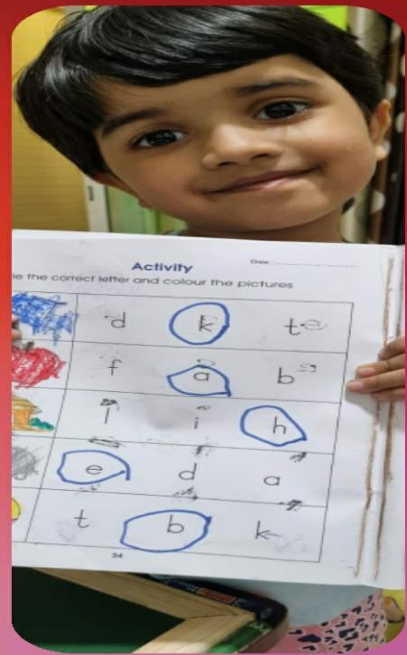

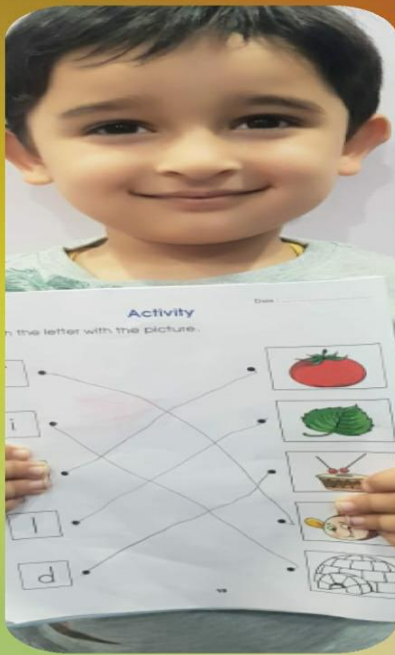

The following curriculum content has been taken up during the above mentioned period i.e. from 1ST February TO 28TH February 2022. We have been taking care & connect session on every Monday with few children to create connect between the teacher and the student. It helps in achieving the objective of overall learning and development of the children. NEP 2020 has brought with it a fresh beam of curriculum and pedagogical structure, particularly for the foundational years of education. The 'New Education Policy' -2020 stresses more on life skills, effective communication skills, encouraging more hands-on learning activities. Experiential learning and play-way method is being given further prominence and meaning. The module is designed keeping the NEP 2020 in cognizance. The topics covered along with the activities have been mentioned below along with the links of videos/PPTs to facilitate learning while being at home.

SUBJECT	CURRICULUM CONTENT	LINK OF VIDEOS/ PPTS/ WORKSHEETS UPLOADED DURING THE PERIOD

DEPARTMENT: PRE PRIMARY PARENT'S FEEDBACK

First of all, I would really like to appreciate all the efforts to making learning easy and simple to preschool kids. Though all the academic session and activities are quite helpful in understanding the whole concept of learning but KNOW ABOUT PLANTS activity is really very informative for kids and as well parents too. He really liked to make oragami sunflower and different parts of plants. Suryansh started to understand importance of plants and the things we are getting from plants. He started to taking care of his small garden and quite interested in growing many more. This activity just inculcating curiosity habit in him. We are very thankful to SHEULI GHOSH ma'am who just made everything so easy, joyfull and smooth and keep doing the same.

P/O Suryansh Sharma PSA

I would like to take this opportunity to thank the school & the class teacher. After watching assemblies and learning about plants, my daughter Veda knows how to grow plants, where are roots & stem. She tells me that plants need to grow -air, soil, space, water & Sun. She was excited to become a lotus flower. She helped me to make the costume. It is an immense pleasure to see her sense of responsibility towards plants in her environment.

Her growth, mindset, and interest in new learning in BBPS, Pre-Primary wing shows your great effort, support & love.

My heartfelt thanks for giving children an opportunity to explore and showcase their talent and develop new learning.

P/O Veda Thakur PSB

Theme for the month of February 'Plants' taught students of Pre School the importance of trees in our life. Advik enjoyed the activities like Germination of Seeds and Fancy Dress (as Flower) very much. He has started to observe and tries to identify the kind of plants around him.

Thanks for the efforts of teachers who are being patient with these curious minds and try to answer every question of them.

P/O Advik Tiwari PS-C

Mam it was very engaging activity for kids where they were excited to make the flower for dress and then learn about the flower to speak in the class. Also kid enjoyed the class session and gained confidence to present themselves and also to see their friends in flower dresses.

P/O Vivan Shukla PS D

The fancy dress activity organised on spring flowers was a beautiful and creative activity... These type of activities helps in improving child's thinking and imaginary skills, speaking skills and give them a very friendly platform to build their stage performance skills and confidence. Anay enjoyed this activity a lot, in sunflower getup he was feeling like he is a sunflower. It was a fun and happy activity for kids and parents both. Life of a plant and the subject itself is very important. Activities related to plants helps in developing a connect with nature and its importance in our tiny tots, which also adds knowledge about the subject.

P/O Anay Gupta PSE

I would like to start with thanking all the teacher for their wonderful and innovative ideas to make kids understand the concepts in a very easy way. Topics covered so far are very amazing and useful for their basic understanding. After having multiple sessions now kids got good understanding about life on land and plants. Activities conducted are very engaging and mesmerizing to kids. We are glad to be part of BBPS. Looking for more such sessions. As I shared many a times, each kids get individual attention. Online sessions are big challenge for kids as well as teachers. But I can proudly say that we won the battle. Great effort from school and teachers. Thank you each one of school management to make it a success story.

P/O Avnika Suresh PSF

P.S.-Parents are requested to forward their valuable inputs on the activity planner as well as concerns, if any, to the Class Teachers of your wards. The email ids of the Class Teachers are given below for forwarding your feedback.
