

Bal Bharati
PUBLIC SCHOOL

Sector -21, Noida

BAL BHARATI PUBLIC SCHOOL, NOIDA

CURRICULUM: PRE- SCHOOL

SESSION: 2022-23

About the Pre-Primary System

Child Education Society, the parent body of Bal Bharati Public School, Noida is committed to inspiring the learners to achieve the highest standards of intellectual, social and emotional development through its multi-faceted curriculum.

It has been researched that over 85% of a child's cumulative brain development occurs prior to the age of 6, indicating the critical importance of appropriate care and stimulation of the brain in the early years in order to ensure a healthy brain development and growth.

The Pre-Primary curriculum is age and developmentally appropriate. All the teaching learning pedagogies and the activities planned, stimulate creativity, critical thinking, communication and collaboration along with scientific temperament and logical reasoning skills. The curriculum designed is child centered providing individual learners with opportunities to explore their interests, skills and abilities at their own pace, wherein teacher plays the role of a facilitator. The curriculum is planned keeping in mind the principle of moving from known to unknown, simple to complex and concrete to abstract.

The essential elements of our curriculum are: Digital Literacy, Foundational Literacy and Numeracy, Integrated Thematic Projects, Collaborative Approach, Life Skills and Moral Values. The multifarious experiential learning activities are taken in an integrated manner lessening the burden on the learners.

The curriculum is categorized under the Learning Centres: Language and Literacy, Maths and Blocks, Creative Expressions, Science Center, Music and Movement and Life Skills through free play and hands on learning activities. They are instrumental in inculcating the 21st Century skills amongst Pre-Primary children. All activities are designed and implemented to enhance the learners' problem solving and decision-making abilities that aid in the learners' cognition in an age appropriate manner. The daily schedule is specifically planned to foster holistic development of the learners striking a fine balance between individual and group activities. Pre-Schoolers are nurtured to become responsible and sensitive citizens of tomorrow.

Steven Anderson:

“Alone we are smart... Together we are brilliant”.

Ignacio Estrada: “If a child can't learn the way we teach, may be, we should teach the way they learn...”

Pre – School Curriculum

<u>Month</u>	<u>Themes</u> <u>PS</u>
