# PRINT RICH ENVIRONMENT

*"If you would tell me the heart of a man, tell me not what he reads, but what he rereads."*  
— Francois Mauriac

Literacy is the gateway to freedom from darkness, human progress, and is a strong tool to realize one's potential. Children gain foundational literacy skills by interacting with the world around them. The National Education Policy (NEP) 2020 lays stress and brings the focus back to the primary goal of education, to ensure learning for all children and this can be achieved easily by creating a Print Rich Environment.

## PRINT RICH CLASSROOMS

We at BBPS, Noida, create an environment rich in print, as children understand that symbols help us to communicate with one another. We motivate the students to read till the letters and words become their best friends. Children observe the facilitators using print materials and realize that print carries meaning and is being used in day-to-day, in real-life situations for various purposes. The tiny tots explore print and become motivated to try to read and write themselves.

A literacy-rich environment, as endorsed in our school has a significant impact on what goes on in the classroom and sets the stage for interactions with a wide variety of genres. The facilitators create a literacy-rich classroom to promote interaction with print and literacy learning for students.

## READING CORNER

The literacy rich environment emphasizes the importance of speaking, reading, and writing in the learning process of all students. We have cosy book corners where regular story reading sessions are conducted, word walls displaying vocabulary and sight words, Theme display boards, printed labels, bulletin boards displaying children's work, picture books, puzzles in the classroom equipping it with all indicators related to literacy. Teachers ensure that students have access to a variety of resources by providing multifarious choices to children connecting literacy to all elements of classroom life.

## INFORMATIVE AND VOCABULARY RICH DISPLAY BOARDS

**"Children learn as they play. Most importantly, in play children learn how to learn."**

Our school provides an environment where students learn through hands-on, meaningful play experiences. Children learn concepts in a way which are both meaningful and fun filled for them, where learning is spontaneous at their own free will. Providing opportunities to handle and examine objects and explore the surroundings help children to find answers to the questions in their minds and to understand the reason why things happen the way they do. Bal Bharati believes in nurturing the young minds and fostering skills like problem solving, language development creativity, imagination and so on. We offer a right balance of traditional values with modern tools with a plethora of activities ensuring holistic development of the children.

**"There are many little ways to enlarge your child's world. Love of books is the best of all."**
